EIGE is a European Union agency which supports the EU and its Member States in their efforts to promote gender equality, to fight discrimination based on sex and to raise awareness about gender equality issues. Its duties are the collection and the analysis of comparable data about gender and equality issues for the development of methodological tools, particular for the gender mainstreaming in all aspects of politics in order to ease the exchange of best practices and the dialog between the interested parties, as well as for the awareness of EU citizens.
